About Me

B.Tech CSE (IoT) student passionate about cybersecurity , embedded systems and software development. Hands-on experience building Python applications and Arduino-based automation projects, with growing interest in secure systems , IoT innovation and problem-solving through technology.

Education

- **BTech CSE (IoT)**
Presidency University Bangalore 2024-2028
- **12th**
Alvas PU College Moodbidri, Karnataka 2024
- **10th**
Milagres HighSchool Haliyal 2022

Projects

Interactive Number Guessing Game

- Built Python GUI game with scoring, hints and difficulty modes.
- Python, CustomTkinter

Smart Waste Monitoring System

- Developed Arduino smart bin with ultrasonic sensing and alerts.
- Arduino, Sensors

Traffic Light Control System

- Simulated traffic signal logic using Arduino.
- Embedded C
